

CHARIS GLOBAL LOGISTICS

This is a comparative study from to stand out from the league to provide the best services with in the industry.

VALUE ADDED SERVICES WITH COST EFFECTIVENESS.

We are pleased to introduce our reputation in logistics and consequently request you to give us an opportunity to act as your Freight Forwarding Agent. As a service oriented International Freight Forwarder, we rank second to none in designing logistics infrastructures which provide the best compromise between cost, speed and reliability especially for the CIS Sector. The target groups of Charis Global Logistics are those customers for which the standard service of the common forwarding Agents, Airlines and Integrators is not sufficient. We seek to distinguish ourselves by providing the most possible flexibility and reliability in customer service. Our global agency network enables clients to benefit from a tailored service to their individual needs and time requirements. As an accredited intermediary in your logistics chain, we keep the promise to give you and subsequently to your customers “JUST-IN-TIME” service.

SERVICES WE OFFER from various origins to Kazakhstan.

LOGISTICS AND SUPPLY CHAIN

(a) Going global-a growing trend

Global sourcing is becoming increasingly popular as a way of accessing new opportunities and strengthening your competitive edge. It is common practice for companies to develop a product in the USA, manufacture it in Japan and sell it in Europe. This means that merchandise will often make a longer and perhaps more complicated journey from its source to the final destination-from concept to consumption.

(b) Managing the process

Charis Global Logistics' supply chain management services are designed to ensure that each step of your logistics chain is carefully coordinated and managed. Our staff is comprised of professionals who are committed to securing the process so as to meet your requirements. Given our network of agents and logistics partners around the globe, we are in a position to support your buying, selling and logistics processes anywhere in the world.

(c) Linking up with you In order to better understand your specific needs and expectations, we work closely together with you. We begin by designating a dedicated client team with the exclusive task of examining each step in your logistics chain. Their job is to understand the nature of your business and assist in optimizing your logistics processes. Working in conjunction with you, the client team will develop, implement and maintain standard operating procedures that will suit your specific needs, thus becoming the fundamental document upon which we will operate your logistics chain.

AIR FREIGHT:

(a) Timing is everything

Where time is of essence for certain shipments, airfreight is the natural choice. CHARIS Logistics understands why valuable time must not be lost. Our highly skilled employees care about your merchandise as much as you do. Processing and overseeing each detail of every stage, so your merchandise arrives safely and as quickly as possible. That includes processing all the administration work, handling and documentation before and after the flight in accordance with the IATA regulations. We know that customer success and satisfaction stems not only from our solutions, but also from our staff. Our commercial service team includes international business experts who have in-depth knowledge of global trade as well as our solutions. They are highly trained and experienced in industry standard methodologies.

(b) Elimination of Guesswork

To monitor the exact progress of your merchandise through each step, you'll appreciate our global data processing and sophisticated communication network. These systems have been designed to make the entire process totally transparent. That way you can make decisions based on real facts and real time. Knowing exactly where your shipment is-anywhere, at any time will eliminate the guesswork on your part.

CONSOLIDATION

This is by far the most popular and cost-effective way to effect freight movement. It is based on set flights during the course of the week where the allocation of space is pre-booked with the nominated Airline. The freight charge is cheaper than on a direct Master Air Waybill and it also means that flight details can be given quickly. We facilitate our customers by making cargo consolidation by Air/Truck which includes the transportation of cargo to the stuffing point, stuffing the cargo into the container, processing shipping documents with customs, use of premium Air/Truck operators and make sure that the cargo will reach the respective destination well before the stipulated time given by the reputed customer. We follow carefully all the important shipping instructions given and take care of your cargo by warehousing it until the shipment will be physically effected.

SEAFREIGHT

Sea freight is an eminent feature among the services offered by Charis Global Logistics. Our network of agents and logistics partners worldwide enable our clients to benefit from a package tailored to their individual needs and time requirements. We excel in facilitating our clients with the following Sea freight services: -
Handling FCL shipments to worldwide destinations.

FCL:

If a shipper / importer has enough cargo to make either a 20ft or 40ft container cost-effective, the product is sold at a container rate. The customer pays an agreed price for the container, it is then totally at his discretion as to how much cargo is placed inside the container-the more tonnage placed inside the container the lower the unit price.

Truckloads of service: full truckload (FTL) and less than truckload (LTL)

As experienced FTL and LTL trucking company in the region, Charis Global logistics has the skill and experience to ensure every truckload maximizes efficiency for our clients, keeping costs down and delivery times shorter.

LTL: maximum efficiency, minimal costs

Not every business needs a full truckload, which is where our experienced Less Than Truck Load team can help keep your customers supplied and your delivery costs down. With our own warehousing and trans-shipment facility, we can ensure that every load is packed to keep your goods safe and secure, and in the right position for minimal movement during the delivery & unloading process.

Our LTL shipping services cover any size of delivery, from a single box or skid to almost a full load (but not quite!). Your LTL freight can be any shape or weight, temperature controlled or not, destined for Kazakhstan the choice is yours.

FTL: your freight, your truck

With a Full Truck Load, our expertise and drivers are entirely focused on delivering your goods on time and in pristine condition. Our full truckload service ensures your load is our highest priority. Our expert team of company drivers and owner operators can take your FTL freight anywhere in Kazakhstan.
